Cattle Sell Under The Standard Sale Terms And Conditions Of The North American Limousin Foundation.
Welcome to the WV Beef Expo

While most breeds of beef cattle would love for cattlemen to believe they are the answer, the fact is one breed cannot be all things to all people. Each of the more than 50 breeds currently in North America have distinct advantages and disadvantages. However, some breeds are definitely in a better position than others when it comes to serving in a variety of roles within our complex beef industry. The Limousin breed, for instance, can’t lay claim to having the highest milk output or the most pounds of weaning growth. What the Limousin breed can do is pack a multitude of economically relevant traits into a single package while keeping the balance and flexibility needed to succeed in the beef industry of the future. A claim very few other breeds can substantiate.

The consignors have gathered an outstanding group of individuals for this years sale. The deepest pedigrees of the breed will be represented. If I can be of any assistance in your selection of bulls or females in the Limousin sale, feel free to contact me.

Thank you for your interest,
Lisa George, Sale Manager

This bull was injured and will not be in the sale.
Wow Look here!!! This bull needs no explanation he is as powerful as they come yet moves like a cat. He is showy enough to grab the judge’s eye yet give the meat packers a bull to drool about wishing he was with their cows!

Double black, Double polled. Homoygous DNA pending. An extremely long bodied, feminine heifer that is correct on her feet and legs. She has calving ease on both sides of her pedigree and a calm disposition.
This is a very stout, smooth, deep ribbed heifer that will catch the judges eye in the show ring and be a standout in the pasture.

Looking for a show heifer that will go on to make a cow? Here she is. Dream Catcher is very correct in her stature and deep made with lots of rib and muscle. Could be the highlight of the sale!

Double black, double polled. A beautifully constructed female with loads of depth and natural thickness, she is extended out of her front end and has that show ring look. She has a gentle disposition and would make an excellent junior heifer project. Sells Open.

Double black, double polled. Homo black DNA pending. If you want to put a sparkle in your herd, take a look at this fancy heifer. Her dam was Jessica's first show heifer and this heifer follows in her mother's footsteps. Sells Open.
